

Lake Thunderbird

Mandatory Cross Connection Control Survey

In order to protect the water supply from being contaminated, we are conducting a survey to determine if there are any hazardous conditions that could affect our drinking water. **Submission of this survey is mandatory by June 1, 2026.** We appreciate you taking the time to complete this survey.

If you have any questions regarding this survey, please contact:

Joe Glynn, TEST Inc.

(815) 252-9626

The information provided is an accurate and current description of your water system at this address.

Please print your information below and sign your name as confirmation of the person completing this survey.

Name: _____ Signature: _____

LTA Address: _____ Date: ____/____/____

Email: _____ Phone #: (____) _____ - _____

1. Do you have any other sources of water, such as a private well or tank that is connected to the water system?
 YES NO Mark all that apply: Well Pond Lake Tank Other
2. Do you have a permanent in-ground lawn irrigation system installed on your property?
 YES NO
3. Do you have a swimming pool? YES NO
Is the pool filled by a permanent connection to the water supply? YES NO
4. Is your building heated by a boiler? YES NO
5. Are there any backflow prevention devices installed on the premises? YES NO
Has the device been tested? YES NO
6. What type of water service line do you have coming into your home (service line before the water valve)? If unsure, contact the LTA Office at (815)854-5095 for assistance.
 Galvanized Copper Plastic Lead
7. What type of water lines do you have running throughout your home?
 Galvanized Copper Plastic Lead
8. Do you have a sump pump? YES NO
Is it connected to the water system? YES NO

Under normal circumstances, you do not need a Backflow Prevention device installed in your home.

If you answered "YES" to any of the questions on this form, please contact Joe Glynn at Test, Inc. to discuss your situation and to see if you need to have a Backflow Prevention device installed.

If you do have a Backflow Prevention Device installed, it has to be tested/inspected annually by a plumber with a Backflow Prevention Certification.

The water system is required by the EPA to have a Cross Connection Control Program in place. Part of the program is a mandatory Triennial Cross Connection Control Survey to be filled out by all residents and businesses connected to the water system.

Completion of this survey is mandatory.

Return the completed survey to the LTA Office by June 1, 2026.
